Re: BP Baldvis Twin Travel Centres - Lot 191 Papparone Road and Lot 192 Leary Road, Baldvis

To Whom It May Concern

This letter serves as a testimony for Aurora Electrical Services in support of their professionalism and business acumen as electrical subcontractors.

Perkins Builders engaged the services of Aurora Electrical Services for the above commercial building project. They were responsible for the complete electrical and communication services installation.

This was a very complex project with a strict timeframe for completion. Aurora Electrical was able to complete on schedule without any disruptions to other sub-contractors on site.

Aurora Electrical Services were very efficient with the management of the project and their personnel on site. The quality of their work and accuracy is a credit to Brendan and his team. They have a high level of standards that are upheld by all employees.

Perkins Builders have no hesitation in recommending Aurora Electrical Services for their proficiency as a sub-contractor and their sincerity in business.

Yours sincerely

Jaco Bosman
Project Manager
