Mr Brendan Balcombe
Managing Director
Aurora Electrical Services Pty Ltd
3 Burchell Way
Kewdale WA 6105

Dear Brendan,

It gives me great pleasure to provide this testimonial for your organisation.

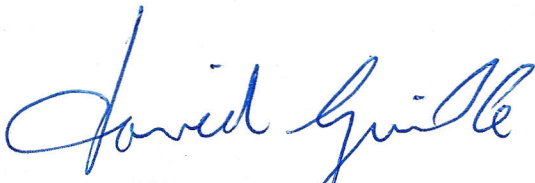

The construction industry is not an easy game. It requires us to have the right people with the right materials or services on site at the right time to end up with the right result.

Brendan, through your leadership at Aurora Electrical Services, your company has been diligent, knowledgeable, reliable and as such been a fundamental contractor of our team to achieve that "right result".

I have personally seen you grow Aurora from nothing more than an idea to a company that today has provided an avenue for new apprentices to learn the trade, undertaken a variety of electrical tasks in the commercial, industrial and health sectors, rewarded your employees and family with financial rewards and in my own experience seen the values you want Aurora to exhibit as it conducts its daily business.

Building Solutions prides itself on establishing relationships with vested parties with a view to maintaining that relationship over many years. On behalf of the Directors and Management at Building Solutions we thank you for your efforts to date and God willing look forward to many more "right results" between us.

Yours sincerely

David Guille FCA
Executive Chairman
